

Worker's Compensation Information

Minnesota Worker's Compensation: Information and Specialized Services

Minnesota is unique; it makes available to injured workers up to \$60,000.00 to acquire an accessible home or to remodel their existing home to accommodate the needs of the injured worker. To obtain this money, the state of Minnesota sets forth specific requirements and procedures that must be followed. Accessibility Design knows the intricate details of the award process and parameters of the program, as well as the check points and requirements along the way. Our experience and specialized knowledge of access, product specification, and project management provides the eligible worker, their family, employer and / or insurance company with necessary guidance through the process and numerous steps, from beginning to end, to enable the award dollars to the individual.

Specialized services for this process are:

- Home Access Site Visit
- Gathering Required Information: Medical and Rehabilitation
- Project Management and Coordination with "Key Players" (e.g.; Injured Worker, Family Members, Caregivers, QRC's, Insurance Companies, Attorneys, Product Vendors, Contractors, Architects, Minnesota Council on Disabilities, Department of Labor and Industry
- Design, Product Research and Specification, and Drawings/Drafting (as needed)
- Cost Estimates and Bid Gathering
- Reports: Production and Submittal

Once the monies are awarded, Accessibility Design can then continue to be of assistance by providing services during construction and at project completion:

- Project Management
- Construction Site visits
- Incompletion Contractor Checklist
- Post Occupancy Education
- Reports and Project Completion Documentation and Reports
